Re: Letter of Recommendation

To Whom It May Concern;

I have personally been associated with Glendale Painting for many years. During that time Glendale Painting has demonstrated they are capable of performing quality concrete repairs, joint repairs and installation of waterproofing membranes.

I have written specifications for Glendale to; reconstruct high rise window sills, make slab repairs, repair and install traffic membrane systems, remove and replace planter waterproofing membranes and install various joint systems.

Glendale Painting is a competent & skilled applicator of products manufactured by BASF Building Systems.

Should you have any questions please give me a call.

Regards,

Tom Kemper
